Instagram: #NYChristmasLights	Yelp: North Kensico Christmas Light Show

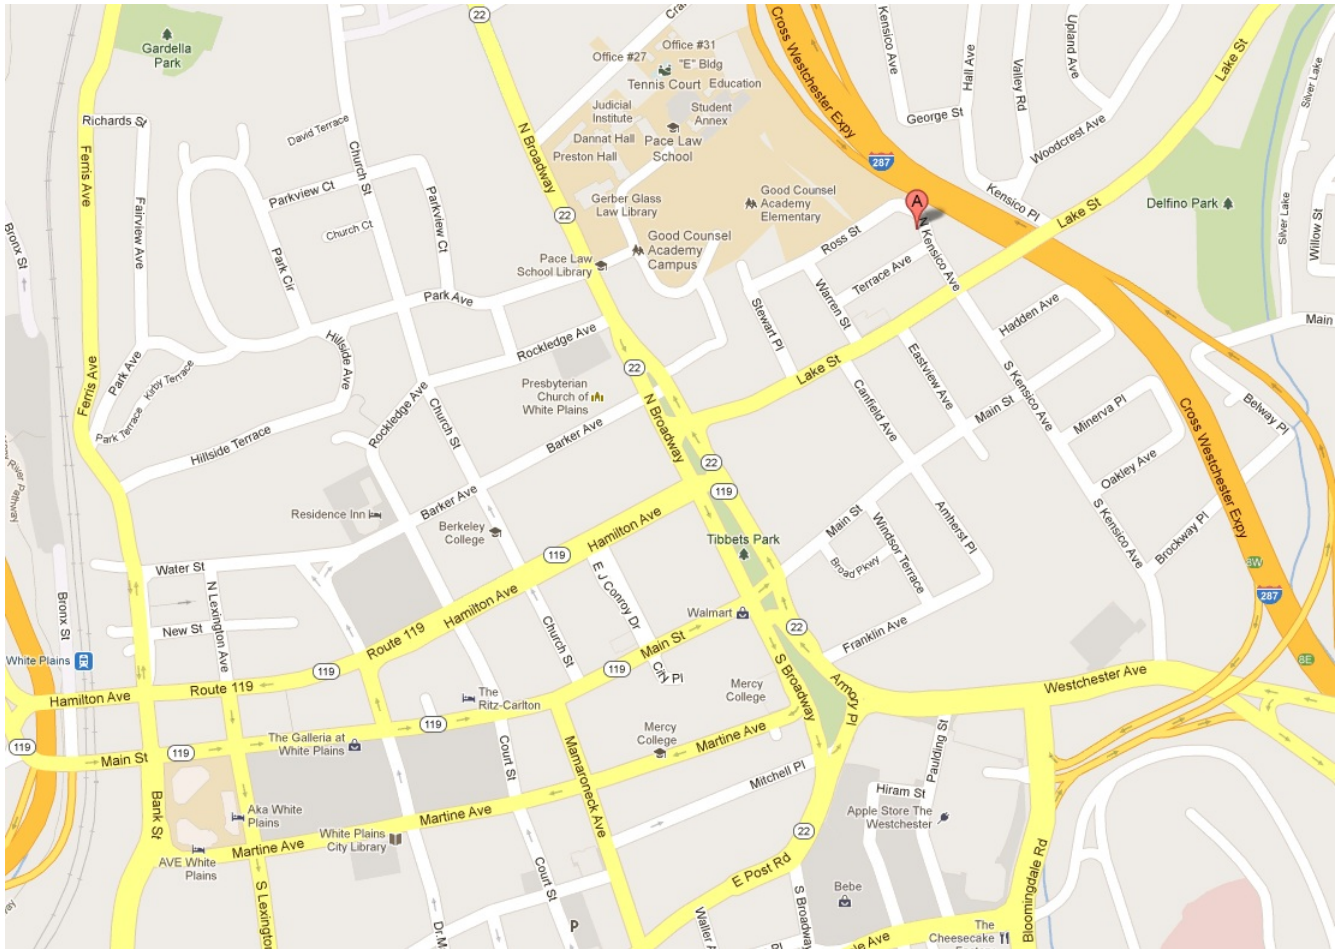

Come on out and enjoy our Computerized Christmas Light Display. This year we have over 10,000 lights on 144 channels. This is our tenth year and a total of 4 homes are synchronized to the music this year.

When visiting, tune your FM car radio to 107.7 and you can hear the music for the lights from the comfort of your car. There are speakers in front of 21 N. Kensico Ave. if you want to get out and stretch your legs too. After every fifth song, keep you eye on the attic window there and you'll see Santa. Check out the online Song Schedule for the exact times your favorite song plays.

Have a very Merry Christmas!

19, 21, 22, & 25 N. Kensico Avenue, White Plains, NY
